

DANCE

Some of our dance classes are a part of a continuous year-round program with open registration occurring in August of each year. These classes are identified as **Teacher Discretion**.

Once a class is filled, a waiting list is established. Students who enroll in August for the Fall 2006 session are able to remain in the program for an entire year, as long as they re-enroll by the "priority" deadline given for each session. This "priority" registration is only for the class in which a student is currently enrolled.

- Continuing students may register in advance for all sessions listed in the current brochure.
- If you miss the "priority" deadline, your space will be given to the next person on the waiting list.
- When your name is placed on a waiting list, you will be called only if there is an opening. When you are called, you will have 24 hours in which to respond. Otherwise, we will assume that you are not interested, remove your name from the list and proceed to the next child.
- Students may be admitted throughout the year, if space permits. Contact the center where the class is held for vacancies. If the class you desire is full, request that your name be placed on the waiting list.
- Instructor approval is required for all Levels II and above.
- The Carlsbad Recreation Department does not include recitals, exhibitions, or competitions as part of its programming or fees. These events, which may or may not be offered by individual instructors, are considered optional for participants and may include additional fees/costs.
- The first 10 minutes of class will be used to take roll, answer questions and make announcements.

Dance Placement Class

The placement classes are offered to help you select the appropriate class for your child during open enrollment month. It is not a guarantee that your child will be able to register for a class during open enrollment.

Ballet I ♥

Ballet I introduces the young dancer to the very basic positions of the feet and simple exercises using the ballet barre. Learning to follow directions as well as good posture and grace are developed with fun movements done in the center and on the

floor using their creativity and self expression to classical music that they will become familiar with. Singing songs and dancing routines in front of the mirror gives them confidence to later perform for their families. Movement across the floor individually and also as partners, doing chasses and leaps help to develop the large motor skills and learn right from left.

The class is designed to encourage young children to move and sing to a variety of styles of music and songs. The class time is divided in half starting with Tap, where they learn basic technique steps like shuffles, flaps, buffalos, maxi-fords, Lindys and traveling steps as well. This is done to a variety of songs. The second half of the class is focused on Jazz which gives them an opportunity to stretch their muscles and learn to isolate the different parts of their bodies. Exercises across the floor will reinforce movement to music and learning to follow instructions.

Tap & Jazz II ♥

Teacher Discretion: prerequisite of 1 year of Tap and Jazz and the mastery of Tap and Jazz I curriculum. Tap exercises begin center floor and are faster and more complicated than the

previous level. The students have mastered all basic tap skills and are ready for more challenging rhythms and steps. Various time steps and breaks are taught and pullbacks and wings are introduced. The patterns are done across the floor and then a routine is given to be added on to each week. The second half of the class will begin with jazz exercises to strengthen and stretch out the muscles. Combinations are done across the floor to improve upon kicks, turns, single pirouettes and various leaps.
